Translation Practice

Read: Litterae 5.3 - 5

(W) Nov 18

Test 5 (Final Exam)

(F) Nov 20

Happy Thanksgiving!

CLASS CONTRACT

This contract reflects your commitment to the class and your plan for success. In the space below write a short paragraph that describes your goals and / or expectations for the class. Include in your answer what excites you about the syllabus and what (if anything) gives you pause. Then fill in the answers to each of the following sections. You will keep the original document and upload a copy (phone pic is fine) to the course Moodle page.

Study Plan

This is a four credit class, and the federal definition of course credit hours requires 2 hours of outside work per credit hour. That means you are expected to devote a minimum of 8 hours to reading, writing, and reflecting about this class every week. Most students, however, find they need to spend three hours on homework and assignments outside of class for each credit hour they take (that's 12 hours for a four credit class). Spend a few minutes planning when you will work on this class.
