

# EC201: Principles of Macroeconomics

## Worksheet 2

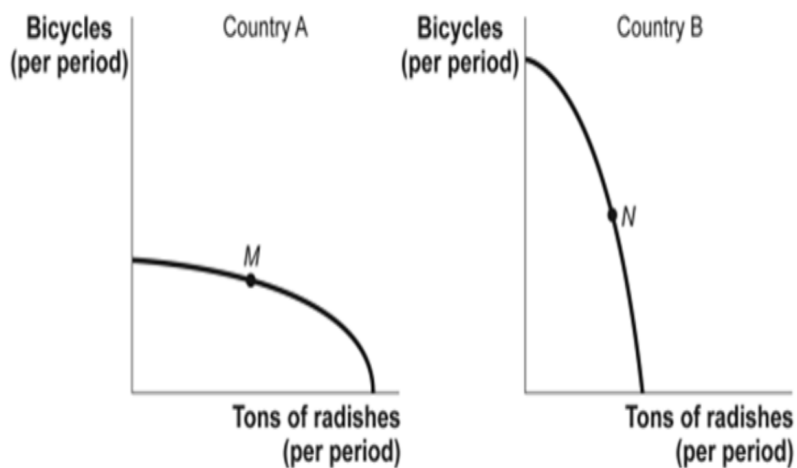

### Exercise 1

- What does movement from X to Y tell us?
- How about the movement from X to Z?

### Exercise 2

Country A is producing at point M, and country B is producing at point N. The marginal opportunity cost of producing radishes would be greater in .....

## Exercise 3

Let's figure out the marginal opportunity cost of:

- Moving from A to B
- Moving from B to E

What do you find?
