

Super High Card

Materials: Deck of 44 cards with 4 sets of ten cards numbered 0-10

Objective: Be the player with the most cards at the end of the game.

To Play:

1. Deal out the cards so that everyone has the same number of cards. If any cards are left over, set them aside.
2. Players place their cards face down in a pile in front of them.
3. Players turn over their top two cards and add the numbers together. The player with the highest number takes the other cards that were turned over by the other players and sets them in a pile to be counted at the end of the game.
4. When two or more players get the same number and that number is the highest, you have a tie. To break the tie, each person in the tie turns over 2 more cards and adds them together. The person with the highest number takes all the cards. If you have another tie, repeat the tie-breaker.
5. After all the cards have been played, players count the cards that they have. The person with the most cards is the winner.
